

Zeus 6303 Camera

The new Zeus line is both performance and feature rich. Several new innovations have been designed into this professional camera line such as a full frame image buffer which allows you to start the next image while the previous image is downloading, multiple A/D channels which allow for uninterrupted communication with its accessories, variable speed fan control and an even illumination shutter. Camera have a USB 2.0 and Ethernet connection. Color filter wheel and adaptive optics are available.

Imaging area of CCD

Zeus-6303 Camera Specification

CCD	Kodak KAF-6303E
Array Size	3072 x 2048
Pixel Size	9 x 9 microns
Read Noise (typical)	13 e ⁻
Linear Full Well (typical)	100,000 e ⁻
Dynamic Range (typical)	76 dB
PC Interface	USB 2.0 or Ethernet
Digitization Rate	1.8 MHz (16 bit)
Cooling (typical)	Max delta >60°C
Dark Current (typical)	0.06 e ⁻ /pixel/sec @ -10 °C
Ethernet Speed	10/100 Mbps

Quantum Efficiency KAF-6306
